SUITABLE FOR ADJUSTABLE BED BASES
Mattress height: 20-21 CM.

REMOVABLE COVER.

N.B.: Covers with widths up to 120 cm will
fit into a household washing machine.

1_ **BAMBOO COVER**

Natural plant fibres. Eliminates excess humidity that forms when the body sweats, counteracting the proliferation of mould and dust mites. Permeable to air, it is highly breathable. Removable cover with circular zip on 4 sides and machine washable at 60°C.

2_ **JERSEY COVER**

100% pure cotton to protect the core.

3_ **LATEX CORE**

Medium-rigid alveolar. Seven differentiated areas that support the pelvis-kidney area and aeration channels. Ergonomic, elastic, non-deformable. The special 18 cm height of the core adds great value to the mattress. A film remains on the core which is obtained by firing, and acts as a protective sheath and, above all, as an anti-oxidising film.

FITTED WITH HANDLES

VOLUMETRIC BAND TO CONTROL HUMIDITY AND AIR PERMEABILITY.
