

Hand
made

Level of firmness:

Side 1
Side 2

Firm

Super firm

Independent titanium springs plus wool topper.
Stapling for greater stability. Strong support.

Mattress height: 27-28 CM.

REMOVABLE COVER.

N.B.: Covers with widths up to 120 cm
will fit into a household washing
machine.

1_ FABRIC COVER

Very strong and resistant, as in the best tradition.
Perimeter zip on 4 sides for washing the quilt.

2_ SPRING SYSTEM

Made up of 400/800 independent pocket springs in titanium,
combined with a special perimeter profile in tempered steel that
runs along the mattress for calibrated and long-lasting support.
The use of titanium increases resistance to stress over time and
prolongs performance, making the mattress easy to handle
and 40% less heavy than traditional steel springs.

3_ BOX

On the side, it encloses the springs and is made of high density
"eco friendly polyurethane foam" to ensure perfect balancing
of the resting surface.
The surface of the massaging layer in hypoallergic ACQUATECH
has different load-bearing zones.

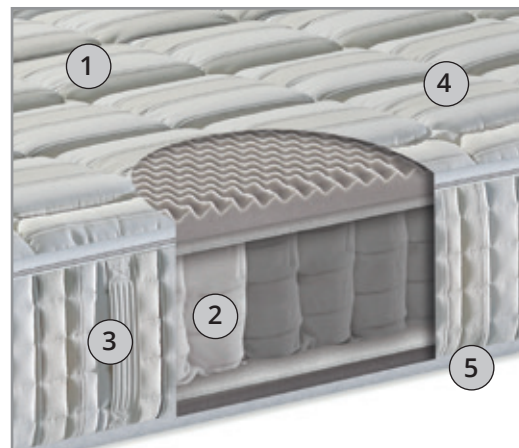

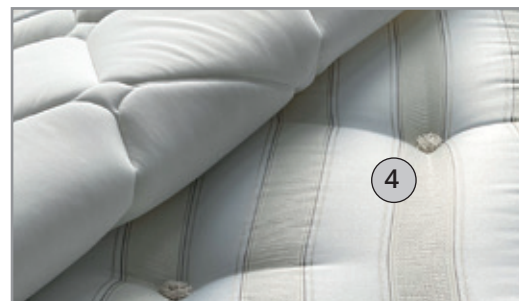

4_ FINISH

Handmade stapled finish with through webbing,
which consolidates and reinforces the structure.

5_ PADDING

Side 1: removable quilt with Merino wool padding, machine
washable at 60°C. Wool is one of the most hygroscopic natural fibres.
As thermal insulation, it prevents heat loss and keeps the body
at the ideal temperature.

Side 2: fixed quilt with padding in pure cotton.
Cool and breathable natural fibre.
