

Duo spring

NEW

Mattress height: 27-28 CM.

REMOVABLE COVER.

N.B.: Covers with widths up to 120 cm will fit into a household washing machine

Topper in touch foam combined with a double spring system: independent with 7 differentiated zones, supported by a traditional spring system for a compact and firm, elastic, and responsive effect

1_ 3D TENCEL COVER

Made of plant-based fibers. Naturally and hypoallergenic fabric as it is derived from cellulose, with antibacterial and antifungal properties. It eliminates excess moisture caused by body perspiration and it is hypoallergenic, and hygroscopic. The three-dimensional structure of the fabric makes it highly breathable.

2A_ INDEPENDENT SPRING SYSTEM

Composed of 400/800 independent pocket springs, combined with a special perimeter profile in tempered steel that runs along the mattress for calibrated and long-lasting support. It features 7 differentiated support zones to optimize the comfort for any body weight. The 7 zones are created by using springs with different preloads in each zone (i.e., the springs are more or less compressed depending on the area that needs to be supported). This ensures stability and a smooth transition from one zone to another.

2B_ TRADITIONAL SPRING SYSTEM

Provides high firmness and superior support. Traditionally proven system, reliable and durable.

3_ TOP BOX MASSAGING LAYER

Made of highly elastic, breathable, and hydrophilic touch foam. It compresses and recovers without compacting. Effectively disperses moisture, keeping it fresh and dry.

4_ SIDER BOX

Encases the spring system and is made of high-density foam (density 50) to ensure perfect balance on the resting surface. Makes the mattress durable and supportive.

5_ PADDING

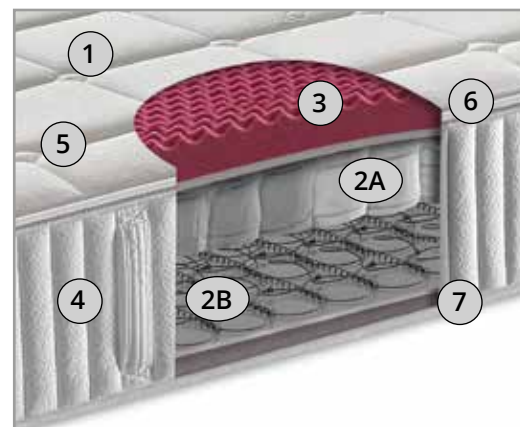

Made of breathable, hypoallergenic, highly-resilient fiber.

6_ SIDE 1 : TENCELL® TOPPER

Ensures perfect weight distribution for an anatomically correct position. Removable and washable.

7_ NO-FLIP MATTRESS: DESIGNED FOR USE ON ONE SIDE ONLY. It is recommended to periodically rotate the mattress from head to foot.

EQUIPPED WITH HANDLES
